## BECOMING SIGNIFICANT:

### Awakening the Power Within

*Becoming Significant: Awakening the Power Within* encourages the reader to recognize inner value through their own personal observations and power. Guided by Pat's interpretations of significance, the reader determines their own level of self-esteem and self-worth while acknowledging the answers to all life's questions are located within.

This self-help book awakens one's private counsel while focusing on ways to promote personal satisfaction. The gems presented in this book offer possibilities to polish and manifest one's goals and desires. The examples presented function only as guides, yet if any patterns of settling for less than you deserve become obvious, you'll most likely awaken for your highest good.

The journey towards significance is an inside job and you are encouraged to examine your life with an intention of aligning your thoughts fully and expansively toward a life of personal happiness. It's up to you to create the life you deserve.

### Endorsement

"I read the book once and I'm going to read it again, it needs to really soak in. If you care about your personal self-care, this is the book to read. I'll be waiting for Volume II." -- Acoreana

### About the Author

Pat Holland Conner, writer, inspirational speaker and family therapist, shares her life experiences in an effort to support others on their journey. She established Peaceful Path Consulting to promote education in personal growth, self-esteem and awareness and has worked as a counselor, trainer and educator in the USA, Asia and the Middle East.
